

Twin Falls

## Must See & Do

- Stand at the northern most point of Australia – Cape York
- See Quinkan Aboriginal Rock Art at Laura
- Swim in the pristine waters of Fruit Bat Falls and Twin Falls along the Old Telegraph Track
- Cruise Cobbold Gorge and view the amazing sandstone formations
- Canoe through Lawn Hill Gorge
- Visit the World Heritage Listed Riversleigh Fossil Fields

## Cape York

Cape York is a vast area of pristine wilderness, fertile wetlands and rugged mountains, a land of extremes where the creeks run dry or ten feet high. If you love bushwalking, four wheel driving, wildlife, fishing, bird watching or camping then Cape York is the place for you.

Traverse the rugged Bloomfield Track to historic Cooktown and on to Lakefield National Park with its abundant lagoons, billabongs and river systems, home to fresh and saltwater crocodiles. Discover ancient Aboriginal rock art at Jowalbinna, the epicentre of Quinkan Rock Art. Get off the beaten track and cross crystal clear creeks, open woodland country and pass giant termite mounds. Swim in the many rock pools and waterfalls including Fruit Bat Falls or Twin Falls and camp at an old telegraph station as you journey along the Old Telegraph Track. Cross the mighty Archer, Wenlock and Jardine Rivers on the way to the very tip of Australia, Cape York and watch as the sun sets over the Torres Strait in a dazzling blaze of colour. Take a boat trip across the Torres Strait and explore Thursday and Horn Islands.

For a hands on conservation experience, assist the rangers with their turtle rescue and research operations at Janie Creek north of Weipa. Or for pure wilderness, escape to the remote area of Aurukun on a wetlands charter, exploring the river system and prolific bird and wildlife.

## Gulf Country

Just a few hours drive west of Cairns, lush tropical rainforests give way to an ever-changing landscape of open woodlands and savannah grasslands, dramatic volcanic landforms, rugged escarpments and cool, fresh-water gorges. Try your hand at fossicking, enjoy Barramundi fishing, view the incredible diversity of bird life or enjoy the preserved history of the frontier towns.

At Undara, see the world's longest and largest lava tubes. Explore the historic mining towns of Einasleigh and Forsayth, and visit the breathtaking Cobbold Gorge to the south. Tour the historic gold mining town of Croydon and travel on board the Gulflander train to Normanton. Don't miss Karumba – a great location for barramundi fishing and watching the sun set over the Gulf of Carpentaria. Just south of Burketown is the spectacular Lawn Hill Gorge in Boodjamulla National Park. Paddle a canoe through the breathtaking sandstone cliffs and explore the World Heritage Listed Riversleigh Fossil Fields for a glimpse of life 20 million years ago.
