

The Sebel Reef House & Spa

Palm Cove - Tropical North Queensland

Just 10 metres from a palm fringed beach, The Sebel Reef House & Spa is a sophisticated, boutique hotel that captures the essence of the tropics with landscaped tropical gardens and ancient Melaleuca trees. Secluded yet cosmopolitan, it's delightfully reminiscent of the colonial clubs of a bygone era while promising personalised attention and sophisticated service.

Framed by Fuchsia flowers, Bougainvillea vines and fragrant Frangipani trees, the whitewashed and timber shuttered Reef House Spa could be described as "plantation style meets cosmopolitan chic". Spa treatments combine the wisdom of Aboriginal spirituality and healing methods with aromatherapy and herbalist principles to produce powerful experiences for the body and soul.

Each treatment begins with a soothing footbath and the ritual of 'smudging' – where barks and flowers are burnt to cleanse the area of negative energies – and end with an invitation to relax in the peaceful lounge.
